Carnival and Festival Will Eclipse Last Year's.

The ways and means committee of the Wichita Carnival and Fall Festival have een diligently at work during the week, soliciting subscriptions from the merchants to meet the expenses of the coming event to be held the week of October 1 to 6. Chairman Goldsmith has adopted a very excellent system this year for the working sub-committees. A list of all the firms, trades and professional men has been made and classified, then alphabetically arranged. Each block is set apart and a list furnished to the several committees each day. They then start out, and when the firms have been called pon their names are checked off of the are set opposite the name. Everybody wants anther big fall festival and carnival simiiar to that held in this city last year, but they all say it must be bigger than ever, and everything advertised must materiinlize. To do this a larger amount of money is necessary than is forthcoming. If the present good work of the commit-tees is kept up and the liberal donations ntinue to reward the committee for their work. In almost every case the firms that have been called upon for their signatures to the subscription books have shown their endorsement of last year's big event by increasing their subscriptions from 50 to 100 per cent. They all sing their praises of last year's street fair and want another. Plans are now contemplated by the executive committee for four very elaborate parades that will be brilliantly illuminated with big searchlights that will throw powerful silver lights upon the dazzling and fridescen floats. The field to be covered by the amount of advertising will be very large and will cost more money than last year, This is brought about by the more distant points that the railroads will sell tickets from, an open rate in the state and Oklahoma having been agreed upon by the passenger agents to be recom-mended to the Western Passenger asso-ciation.
